Prominent Alumnae Featured in Chapel

The annual Alumnae Chapel program Tuesday, April 6, featured a talk on "Women in Public Relations" by Miss Kate Urquhart '37 of New York City, and a discussion and demonstration of "Pottery Making as a Hobby" by Mrs. Don Holt (Margaret McConnell '29) of Graham. Chancellor W. C. Jackson introduced Mrs. Boydston Satterfield (Frances Gibson '28), president of the Alumnae Association, who brought greetings from the Alumnae.

Mrs. John E. Sockwell (Mary Jane Wharton '31), of Greensboro, vice-president of the Alumnae Association and Chairman of the Undergraduate Relations Committee, introduced the speakers.

cy in New York City. She cited the opportunities there are for women in the field of Public Relations. She gave interesting incidents from her own career, as well as those of other women in the public relations field. After the program and during the afternoon, Miss Urquhart discussed her field further with interested students.

Mrs. Holt explained that pottery can be made right at home, with very little equipment and from the clay in the back yard. She pointed out the possibility of marketing hand made products and demonstrated during her talk by actually moulding a pitcher. She made the various processes sound very simple and most interesting.

Immediately following the program, the speakers were entertained at luncheon in the private dining room of

BURNSVILLE SCHOOL OF FINE ARTS

BY GRACE ESTEP, '45

Of particular interest to Alumnae living in or near North Carolina is the opening on July 5th of the second annual session of the Burnsville School of Fine Arts and the Burnsville Playhouse, Inc. The project, which is sponsored co-operatively by the Woman's College, non-profit corporation of the town of Burnsville, and the Veterans' Administration, will this year run for eight weeks, through August 27th.

The school and theatre were organized in the summer of 1947 to realize a long-felt need for a summer art colony in Western North Carolina. Burnsville, a small town in the heart of the Blue Ridge Mountains, 40 miles northwest of Asheville, was an ideal selection for the locale of the new venture.

As a vacation spot, it offers all of the beauty of the mountains which completely surround the town, numerous streams, woods and trails, a famous climate and an equally famous

hospitality. Culturally, Burnsville has often put to shame larger towns and cities in the state. A little theatre organization had been in operation for years and the citizens were eager to expand their project.

The idea seemed to take root in three different places at once. Professor W. R. Taylor, head of the drama department at W.C., had for a long time talked of such a colony in Western North Carolina. The time finally seemed ripe. He secured the interest of the college in the Burnsville project and at about the same time was approached by the Veterans' Administration to aid in establishing some sort of fine arts school or program for veterans. The three groups got together and definite plans were made.

The people of Burnsville, whose contribution to the success of the school cannot be exaggerated, proved their enthusiasm. A local corporation was formed with an unusually active Board of Directors which immediately got to work. This

corporation, The Burnsville Playhouse, Inc., raised a substantial sum of money, converted a gymnasium into a theatre with a stage the size of Aycock's, secured the interest of the County Superintendent of Schools and the use of the high school for classrooms.

In a surprisingly short time and with little publicity, the efforts of the three interested sponsors were coordinated and the school opened on July 21, 1947, for a six-weeks term. The success of the project is unquestionable. A regular schedule of classes in all phases of dramatic art was given to a substantial enrollment of students. Ten performances of three Broadway plays were presented to a large audience of townspeople and resort visitors. The school was placed on the approved list of summer stock theatre companies by the New York Times and The New Yorker magazine. Final proof of the tremendous success of the school was the recognition of its work and progress by the Carnegie Foundation in making a four-year grant to help it along in its infancy.

The second summer session will open with an expanded program, offering courses in music as well as drama. Extension courses in education under the direction of Mr. Charles W. Phillips will be given four terms of two weeks each. This phase of the school is designed primarily to give teaching certificate credit to those unable to attend summer school. Two-week courses in public school music, art, reading, science, curriculum construction and guidance will give two hours of college credit.

Burnsville is the perfect answer to "Where shall I spend my vacation?" If it's two weeks you have, there's the opportunity to work on your certificate credits and at the same time enjoy a mountain holiday and a get-together with friends. Or, if you don't want to study, Burnsville offers tennis, swimming, fishing, riding, mountain-climbing, moonlight hayrides, barbecues and picnics, plus the productions of the theatre group. And it's guaranteed you'll find other W.C.'ers there.

Anyone interested in the school may write W. R. Taylor, care of Woman's College, for the 1948 announcement pamphlet giving further information. Those interested in extension courses should contact Mr. C. W. Phillips at the Woman's College.

Katherine Taylor Is Made Woman's College Dean of Women

Miss Katherine Taylor '28, who has been acting dean of Woman's College since the illness and death last year of Miss Harriet Elliott, has been made permanent dean of women, according to an announcement by Chancellor W. C. Jackson. Her appointment to such a position reflects credit on Miss Taylor and on the Alumnae Association and has been received with genuine delight.

After her graduation at Woman's College, she took graduate work at Radcliffe College where she received the master of arts degree. Since 1929 she has been successively instructor, assistant professor, and associate professor of French, and since 1934 has also been a counselor.

Throughout the years of Miss Elliott's successful deanship, she was closely associated with her predecessor and has indicated that she will endeavor to carry forward Miss Elliott's policies and programs.

Her effectiveness as a counselor and

teacher, combined with her familiarity with Miss Elliott's work, made her a popular choice with both students and faculty for the college deanship.

A native of Salisbury, N. C., where her mother, Mrs. W. W. Taylor, now lives, Miss Taylor was a Phi Beta Kappa student at Woman's College and received the Weil Fellowship upon her graduation.

In France studying at the Sorbonne at the outbreak of World War II, she returned to teaching at Woman's College, but later was commissioned in the WAVES and served until 1945 as a lieutenant (jg). She was company commander on the executive staff at the Naval Training School at Smith College, was educational services officer at the Naval Hospital, Portsmouth, Va., and was regimental commander at the Hospital Corps School, Great Lakes, Ill.

The new appointment will be effective July 1.

Minnie Lou Jamison

1866-1948

BY EMMA LEWIS SPEIGHT MORRIS 1900

In length of service and in loving devotion to our college, Minnie Lou Jamison's "name leads all the rest." For more than a half century, she was an outstanding, sun-crowned figure on the campus. Perhaps more than any other alumna her life exemplified the college motto, "Service."

She was among the first of those 223 pioneer students to enroll when the State Normal and Industrial School opened its doors of opportunity to the young women of the state, October 5, 1892. She ended her work for this same great institution — now known as the Woman's College of the University of North Carolina — just five days before her death, January 23, 1948.

She was of sturdy Scotch-Irish parentage, the daughter of Louise Kilpatrick and Miles Stanhope Jamison. She was born October 9, 1866, in the shadow of Prospect Presbyterian Church, Rowan County, near Mooresville. She received her early education in the academy nearby. Thus were molded the Christian ideals followed throughout a life of love and service.

On a frigid day in January Miss Jamison was brought back to the old home church for burial in the family plot after an impressive service held in the Presbyterian Church of the Covenant in Greensboro.

Today as I placed spring flowers on this hallowed spot in the name of her student, alumnae and faculty friends, I seemed to hear an invisible choir singing "Peace, Perfect Peace" in this quiet little country churchyard — then followed the strains of the triumphant Easter message.

Miss Jamison is survived by a sister, Lillie, for whom she had made a home just off the campus and given loving care through a long illness. A sister and three brothers preceded her in death.

For several years she taught school in Rowan, Iredell and Cabarrus Counties. She loved her pupils and was very conscious of the fact that she needed a better education in order to give them all that she desired for them; so the young rural teacher began to dream of and to save money

MISS MINNIE LOU JAMISON

for a college education. Just then the great crusade for the higher education of women was led to victory by Dr. Charles Duncan McIver, and the State Normal and Industrial School was established in Greensboro. Her own story is characteristic of the spirit of those early days. "I came to the State Normal and Industrial School with enough money to eke out my existence for the year — money which I had made teaching in a little country school. Not being able to see ahead for any further schooling I took little odd jobs that year, many of which the janitors now do and receive much better pay than I did — I am glad.

"During my student years I had one good dress. Before my junior year I made it over into an Eton jacket suit for my best Sunday dress. Those were strenuous days, but I do not regret them. I cherish them."

In early April of her senior year she was called home on account of serious illness in the family and was unable to return for graduation. She said her most interesting recollections of her student days were of an ethical and spiritual nature. Dr. McIver's great love for humanity so filled the atmosphere that the real spirit of democracy and cooperation was lived on the campus. The happiest relationship

existed between faculty and students.

After four years association with Dr. McIver and his indomitable faculty, she too was a champion of the idea that "when you educate a woman you educate a family." Miss Jamison considered it a great moment in her life when Dr. McIver invited her to join the faculty as teacher of domestic science. Now she could have a part in preparing women better to meet their first obligation — the establishment and preservation of the home. She held that no community could rise above the level of its homes. Along with practical knowledge must go high thinking.

Some of her first students marvel that so much was done with so little in laying the foundation for the department of home economics. She was the beloved and inspirational type of teacher, always encouraging yet exacting the best from each individual student. That first year her salary was \$33.33 1/3 per month, with excellent board in a private home for \$8!"

In 1897 Miss Jamison became assistant "Lady Principal" to Miss Kirkland. As she often said "from that date, life with the students in the dormitory has been my happiest work." She was our personal friend and inspired love and confidence. What an interesting book she might have written from first hand knowledge of "The Love Affairs of College Girls." The "beau" or "date" delighted to present her with a box of candy or flowers either in appreciation of her kindness or in hopes she would speak a good word for him! The girls of this period remember her as a soloist whose contralto voice and gracious personality were a delight on many occasions. We also have a picture of her in a becoming purple hat gay with vari-colored pansies.

In addition to her pioneer work in home economics at the college, Miss Jamison helped her students to initiate and develop programs for the high schools of the state. She assisted her sister, Lillie H. Jamison, in organizing the first work in home economics in the Durham City Schools in 1900.

In 1915 under the Smith-Lever Act, a program of adult education in home economics was sponsored by Woman's College and the state and federal departments of agriculture. At the suggestion of Dr. Foust, Miss Jamison became assistant demonstration agent and went over the state

organizing the older women of rural homes into community clubs. The idea was to bring variety and change into their lives and to create a more intelligent interest in the home, the school, and the community. Reactions were interesting. One would say, "I ain't got no time for no such foolishness," another, "I'd walk miles every week for such help." At the request of these women for a guide book to carry on after she left, and with the approval of her director, Miss Jamison wrote a bulletin, "Plans for Community Work in the Study of Foods and Household Conveniences." This proved very helpful in the state and was so highly commended that the government issued a third printing and sent copies all over the United States, into Canada, Alaska and other countries. She contributed an article to *County Gentlemen* on this rural project that reflected credit upon her college and state.

During the first World War, Miss Jamison directed the "College Volunteer Workers" throughout the state in so effective a program as to merit high praise from Herbert Hoover, the national food administrator. Through the extension department of the college, work with the rural women continued until 1924 when Miss Jamison returned to dormitory life in charge of the freshmen. This place she filled until her semi-retirement in 1936. She says this was her greatest challenge because, as she expressed it, "my long years of experience have taught me that in every freshman there is a finer, better self to be developed and that my responsibility is to give her the encouragement to develop that best self and to help open up the greatest possibilities for her." She practiced this philosophy.

Her love of flowers led her to interest her freshmen in beautifying the campus with a planting that transforms it into a veritable Garden of Eden in the spring. Her last freshman class in their senior year dedicated the 1939 volume of *Pine Needles* to Miss Jamison in these words, "Educator, Counselor, Believer in Youth, Miss Minnie Lou Jamison has served the college and state since her graduation. Her work has been as distinctive for excellence as for length of service."

Her personality has influenced gen-

eration after generation of girls. The college honored her by changing the name of West Dormitory to Jamison Hall. Returning alumnae eagerly anticipated her warm "welcome home again" and enjoyed her contagious laugh as she would recall the happenings of former days or regale us with the latest campus gossip. Her sense of humor and liberal attitude toward changing conventions were characteristics that enabled her to understand, love and influence each generation of students. She took great pride in the college's growth and expansion and was ever ready to serve wherever needed. Her last official affiliation with the college was as adviser in social affairs. Her distinctive personality and cordial social graces made her an ideal hostess. To her the campus was her home, the students, alumnae and faculty, her family. She will long be remembered as the friendly "lady with the powder puff hair."

In recalling my many little visits to Miss Jamison throughout the years, I realize she has continuously enriched my life not only by such practical suggestions as "how to make a cake that will keep your husband in a good humor" or "how to budget your time, money and work," but more by her own life and interpretation of the intangibles of life with the thirteenth Chapter of First Corinthians as her guide. Hers was a life of faith, hope and love, nobly lived that others might live more abundantly.

Dr. Gove's Will Establishes \$5000 Student Aid Fund

The will of the late Dr. Anna M. Gove established a \$5000 student aid fund at the Woman's College in memory of Mrs. Charles D. McIver, wife of the founder and first president of the college. The fund is to be used to assist students who are planning to enter the medical field.

The Weatherspoon Gallery Association also received a \$500 bequest. Others who shared in Dr. Gove's estate were Miss Anne Shamburger, Misses Cora and Daisy Strong, Miss Louise Alexander, Mrs. Annie Beam Funderburke, Mrs. Annie McIver Young, Mrs. Virginia Brown Douglas, and Mattie Booker, Dr. Gove's maid. The house was left to Miss Shamburger who had made her home with Dr. Gove for many years.

A LETTER FROM YOUR PRESIDENT

Dear Alumnae:

During the past six months we have tried to reach each of you (graduates and non-graduates, you are all important to us, and we want to be important to you!) at least twice. Many of you have written to us, and quite a large number have once again become active members. By your interest you have convinced us that this tremendous job of contacting 26,200 former students of Woman's College has been worth both the time and the money.

On May 29 we hope very much to see large numbers of all classes at the college for reunions. We found out only recently that May 29 is Primary Day in North Carolina, and believing that many of you wish to exercise your privilege of voting, we have rearranged the usual schedule for Alumnae Day.

Registration will take place upon arrival May 29, with class reunion luncheons at 12:00 in designated places. The commencement meeting of the Alumnae Association will follow at 2:00 o'clock, with Class Day at 4:30 o'clock and an All-Alumnae supper at the Alumnae House at 6:00 o'clock. The commencement play is scheduled for 8:30 o'clock in Aycock Auditorium.

The welcome mat will be out and we hope to have a real Alumnae Homecoming. Of course, you are invited to stay through graduation exercises on Monday.

Looking forward to seeing you May 29.

Cordially,

*Franice Gibon Settfield

Alumnae President

Acknowledgment

We are most grateful to Miss Bessie Moody for sending a copy of the 1899 Class Day program. This was a pageant entitled "The Stygian River" and has been added to our College Collection along with a picture of the 1899 marshals.

If you have any such programs, notebooks or pictures we would be so happy to have them. Send either to the College Library or the Alumnae Office.

A LETTER FROM OUR CHANCELLOR

Dear Alumnae:

One of the striking things about American education at the moment is the extent to which private aid is being given to it. Practically every college and university throughout America is conducting a campaign for the raising of funds from private sources. The figures run into millions in most of these campaigns. Funds for buildings, endowment, scholarships and fellowships, and a wide range of other good causes are being subscribed. Private donors are being very generous.

I presume you are familiar with the Foundations that have been established at State College and at Chapel Hill and the remarkable success that has attended them. The total amount contributed to the Foundations at State College exceeds one million dollars. Only a few days ago it was announced that the Business Foundation at Chapel Hill had reached its first

million, and plans were announced for working towards the next million.

You are also familiar with the fact that there has been established at The Woman's College the Home Economics Foundation. So far contributions to this Foundation are something more than \$50,000. Plans are under way for adding substantially to this amount. Several years ago we began to raise funds for a Chapel and we now have more than \$40,000 in that fund. In addition to these, there is an urgent need for money for other causes. Probably our most urgent need is for scholarships and fellowships. At present we have only one fellowship, The Weil Fellowship. If it could be known and realized how much this one fellowship has meant to this College, I am sure it would arouse interest in immediate provisions for others. We have a very limited number of scholarships. The need for more of these is strikingly urgent. The Weatherspoon Art Gal-

lery deserves a recognition and support that we have not yet given to it. We have an Arts Forum that has attracted widespread attention and interest, and the recently established Harriet Elliott Social Science Forum met with a remarkable success. The friends of Miss Coleman have set up a fund for a Memorial Library to her. We have long had a fund for the purchase of a pipe organ. The library has many urgent needs. Of course, the Alumnae Fund stands at the top of the list for many of you.

We have some 26,000 former students and graduates. I wonder how many of these are able or willing to give \$2, \$5, or \$10 per year to one or more of our needs. There are of course some who can give more. Think what it would mean if 10,000 of our graduates and former students would give even \$2 per year to these good causes.

"Now is the time for all good alumnae to come to the aid of the College."

E. J. FORNEY

1860-1948

BY FRANCES GIBSON SATTERFIELD '28

Back in February, 1946, I received a letter from Mr. E. J. Forney. It pleased me greatly, and I kept it because it was so typical of that knowing and kindly man. He recalled a fall week-end during my college days when he had invited me to accompany the dean of women, her secretary, Mrs. Forney, his son, and himself to his mountain home in Ashe County. "I now look back upon that occasion as unique from many points of view. I remember you wrote an article about it in *The Carolinian* the next week — and now that is the 'topical sentence' of this letter, to find out the date of that trip. I have been making up a scrap book of that mountain place and I want to include your articles among the many interesting features that hover around that little place during the 35 years of our visits up there. What a surprise from labor those trips proved to be."

I replied immediately, guessing as best I could at the date, and reminiscing over the pleasure the trip gave me. The next month his reply came. He recalled having a vacant seat in one car and said he suggested me because of my connection with *The Carolinian*, continuing: "I am not sure now that you had crossed my intellectual conscience up to that time. [I particularly liked that because that is typical Forneyism.] At any rate somebody's judgment was good and I made a nice friend that trip. I enclose your article from *The Carolinian*."

I have just read that article, written the day after I returned from the trip to Western North Carolina. In retrospect, I see so much of Mr. Forney's philosophy and teaching that I am sure I did not realize at the time. I perhaps thought I was a very keen reporter. He was simply pouring facts at me every minute — the heritage of the mountaineers; the history of the five counties we crossed; the interesting characters we stopped to greet; the wild flowers — and finally "Was-tena" (the Indian name for the Forney retreat meaning "pretty mountain home"); Mrs. Forney's garden; the grape vineyard and the apple

MR. E. J. FORNEY

orchard — and a little of the economics of harvesting mountain products when you live miles away in the city!

Mr. Forney could not have taken me on that trip without sharing his interesting knowledge. He was first and always a teacher. He was reading, listening, observing, every day of his 87 years, and he could not understand anyone's unwillingness to learn if one had the opportunity. That attitude no doubt goes back to his youth. He was born in the country near Newton, N. C., in November, 1860. His earliest recollections were of fear of the Yankee soldiers and of some of the experiences and hardships of the days of reconstruction. As he was quoted by Miss Clara Byrd in the February, 1937, ALUMNAE NEWS: "Those were dark days. You don't know anything about them — haunted by the mortgage ghost and every sort of deprivation — those days after the war. A one-room school two and a half miles from my home opened early in the '70's and continued less than three months in one year. I went. I learned to cipher pretty well on a slate. The light of a pine knot was my lamp at night, the wood pile in the chimney jamb my seat."

Poor schools and poor teachers continued to be his lot even after the

family moved to Newton. At the age of eighteen he enrolled at Catawba College and remained for two years. While a student there he came upon an advertisement of a Munson short-hand book for one dollar. He taught himself shorthand, and followed this with a study of telegraphy, eventually becoming the operator at Lincolnton. One day a man came to buy a ticket and young Forney, seeing that he carried a book of shorthand, was inquisitive. It turned out to be Isaac Pittman shorthand — and he was a Pittman devotee. There were still practically no shorthand writers in the state and Mr. Forney was the second to learn the new method of speed writing. This knowledge took him first to South Carolina with the Southern Railway, and then in 1890 to the office of Major Finger, State Superintendent of Public Instruction, in Raleigh.

It was there that Charles Duncan McIver found him, and for months E. J. Forney's shorthand recorded Dr. McIver's meetings, conferences, and letters relating to the proposed college for women. In 1892 it was he who came with Dr. McIver as his secretary and head of the Commercial Department, to the two bare buildings in the red mud of the then designated State Normal and Industrial School at Greensboro.

From then until his retirement approximately 4,000 girls were trained by his department to go out into the business world. They have gone to some of the largest and to some of the smallest firms in the country, and they were among the best. As Mrs. Fodie Buie Kenyon, one of the first "girls" he trained (and the one he prepared to succeed him as Dr. McIver's secretary) wrote: "He came at a time when the women of the state needed training of the type he gave. Up to then no lady went out alone; no lady worked in an office; no lady went alone into a courtroom, or to a doctor's meeting. I shall never forget the day he sent me to the court in Greensboro — green, untried, right out of the classroom. I can still remember the stares and the wonderment of that group that a woman could write in shorthand what they had said — and read it back!"

In the classroom his students found him exacting, stern, and seemingly a hard taskmaster, unrelenting in his demands. He was intolerant of laziness — and impatient with students and often resorted to sarcasm or

severe scoldings with students whose work did not meet his high standards. One of his favorite admonitions was "young women, if you were as determined to get into your work as you are determined to get out of it — what a success you would be!"

At the same time he was witty, kindly, sympathetic and helpful and had one major objective — to turn out the best equipped young women for business in the country.

Tall, thin and stooped even as a young man, with piercing grey eyes, and at times a smile that covered his whole face, E. J. Forney for 48 years was a loved and respected figure on the campus of Woman's College. Teaching W.C. girls was the thing in his life he considered "most beautiful." He considered the greatest piece of work he had done, helping set up the state's budget accounting system — but from the hundreds of tributes that have poured into the college since his death on January 29, 1948, teaching his girls was not only the most beautiful thing in his life but the greatest piece of work, too.

He was the last living charter faculty member of the college — the last link between the past and the present. Fortunate indeed are those who were his students and his friends.

Alumnae Association Entertains College Granddaughters

The Granddaughters of Woman's College, their parents and members of the faculty who were at the College prior to 1930, were entertained at an Open House in the Alumnae House by the Alumnae Association, Sunday, April 18, 1948, from four to five o'clock.

Parents of the Granddaughters who are students were invited to come to the University Sermon Sunday at 11 a.m. Dr. Arnold S. Nash, head of the Department of Religion at the University of North Carolina, delivered the sermon which was sponsored

by the Freshman Class. Visiting parents had dinner with their daughters in the dining halls.

Mrs. Gertrude Grimes Webb '40, chairman of the Alumnae Social Committee, was in charge of the tea and guests were greeted at the door by Miss Ione Grogan '26 and Mrs. Anne Fulton Carter '21. Mrs. Webb presented the guests to the receiving line composed of Dr. W. C. Jackson, Mrs. Jane Wharton Sockwell '31, Miss Katherine Taylor '28, and Mrs. Betty Brown Jester '31.

Miss Miriam McFadyen '00 and Miss Jane Summerell '10 poured tea. Miss Mary Lane Siler '43 had charge of refreshments which were served by Mrs. Willard Dean (Evon Welch, Com. '42) and Misses Virginia Jackson '29, Betty Moore '46, Louise Turner '46, Zoe Sweeter '46, Mary Miller '41, Elizabeth Hathaway '25, Mary Lois Gordon '43, Maxine Garner '39, Margaret Flintom, class of '24, Agnes Cox '27, Dorothy Clement '23, Elizabeth Booker '41, and Mary Elizabeth Barwick '44.

Anna M. Gove

1 8 6 7 - 1 9 4 8

When at its opening in 1892, the State Normal and Industrial School employed a resident woman physician, it took a step almost daring, especially in a state where at the time there were only two women doctors. For this pioneering step, the credit is given to Mrs. Charles D. McIver. But even she could not have guessed how much the decision was to mean in the life of the school.

The first resident physician was Dr. Miriam Bitting. Her Southern background, good training, poise and friendliness helped to lessen the prejudice against women in medicine. She did not stay long enough, however, to make any great impression, as she left in a year's time to be married. Happily the gallant little New England doctor who followed Dr. Bitting was to remain for more than half a century and to build herself into the very structure of the institution. Seldom has one life meant so much to so many and for so long.

When Dr. Gove came, the girls, with youthful open-mindedness, soon accepted the "female lady doctress." The parents were slower and more hesitant. The doctors, frankly curious about this intruder into their ancient profession, were sometimes awkward and embarrassed in her presence. However, we have Dr. Gove's own word for it that they were always courteous and kind. Indeed, they could hardly have been otherwise in the face of her dignity, professional courtesy and sound training.

Dr. Gove's quiet modesty, however, probably prevented the full realization of how exceptional were her background and training. Born into an old New England family — there was a Gove in New England as early as 1680 — she was brought up with the loving care accorded to an only child. But in this bringing up there was no softness. Her training in manners was so thorough that her taste in conduct became almost infallible and the doing of the considerate and gracious thing became second nature. And she was expected to stand on her own feet and to do her duty with courage and without complaint. To her father, an early medical graduate

of Dartmouth, she seems to have owed her interest, even as a child, in medicine; her appreciation of nature; and at least the beginning of her habit of accurate observation. This habit — even in later years when her vision became defective, she still saw more than the usual observer — was to become the basis of her skill in diagnosis. Dr. Foust used to say that he never knew her forced to change a diagnosis once made.

Following this good start in her New Hampshire village home, came Dr. Gove's graduation from the Academy in St. Johnsbury, Vermont (later attended by Calvin Coolidge). Then her father planned for her a pre-medical course at the Massachusetts Institute of Technology. There she joined a small band of girls unusual both in their ability and in their ambition "to master the course at the hardest college in New England." Among them was Dixie Lee Bryant (her Ph.D came later from a German university) who was to teach at our college and to be the means of bringing her New England college mate to Greensboro. In the group, too, were Ethel and Edith Blackwell who were to follow their distinguished aunt, Emily Blackwell, into medicine, and one of whom was later to spend a year in Greensboro as Dr. Gove's

substitute. Dr. Gove always remembered her years in Boston as golden years, partly because of the goodly fellowship of pioneers and partly because of the stimulating instruction by such biologists as Sedgewick and Hiatt.

From Boston she went to New York, graduating in 1892 from the Woman's College of the New York Infirmary (later consolidated with the Cornell University Medical School). The next year she spent as an interne at the New York Infant Asylum. More than forty years afterwards her "chief" there recalled how she seemed "a born physician," how she won all hearts by her tact and kindness, to say nothing of the fact that "not even an atom of dust ever dared attach itself to her."

Thus prepared, Dr. Gove began her work in Greensboro. But her preparation was by no means ended. She was to spend two years (1896-'97 and 1913-'14) in Vienna, then the Mecca of medical students. She was especially interested in the ear and could have qualified as an ear, nose and throat specialist after her work with such distinguished instructors as Hajek, Kaufman and Politzer. However, she attended lectures and clinics in various fields (including Psychiatry under Kraft-Ebing) and once assisted the famous Dr. Lorenz by giving the anaesthetic in an operation. Incidentally, during her first leave in Vienna she attended the International Medical Congress in Moscow, representing both New Hampshire and North Carolina. The year 1917 found her on leave again for study, this time in New York. Our entrance into war, however, made her volunteer for work abroad and she spent a year and a half in France, first under the Red Cross, then with the Smith College Relief Unit. During 1926-27 she had leave to visit the Orient. Again and again she used her vacation time for study at such medical centers as Ann Arbor, Chicago and New York.

These constant efforts to make herself a better doctor were paralleled by Dr. Gove's constant efforts to enlarge and improve the medical service at the College. She secured in succession a small infirmary (with a colored maid), a practical nurse, and a trained nurse. In 1912 she supervised the building of the present infirmary which now bears her name. Because of her, the Woman's College was among the first half-dozen or so col-

leges in the country to establish a regular student health service with required physical examinations. It was the very first in North Carolina and among the very first in the country to add chest x-rays to this examination.

The addition to the curriculum of a required course in hygiene came through Dr. Gove's insistence and through the grant she secured from the American Social Hygiene Association. The first organization of the physical education work under a trained director was made by Dr. Gove, also. Nor were her efforts limited to the campus. She belonged to many and various medical bodies and was especially active in the American Student Health Association, at one time serving as vice-president and several times appearing on its programs.

But more than anything she did for the college community, Dr. Gove blessed it by what she was. We remember gratefully the dignity and charm which made her so much in demand for social functions; her delightful hospitality; her New England thrift and her great generosity; her wide interests; her sense of humor and her quick repartee; her appreciation of even the most casual or the humblest service; her habit of meeting every need she sensed with the question, "What can I do to fill this need?"; the gallant spirit with which she faced limitation and suffering. No wonder she endeared herself to all sorts of people, old and young, rich and poor, black and white, or that when her last illness came, she who had no immediate family, still had no lack of loving care. Even in our grief we can rejoice that she walked among us for so long. And surely we can believe that one whose happiness it was to do for others, finds even ampler opportunity in that city where "His servants shall serve Him."

Miss Byrd Attends Luncheon

Miss Clara B. Byrd attended the Book and Author luncheon at the Hotel Astor in New York City April 6. She was the guest of Mrs. Ogden Reid, publisher of the New York Herald Tribune.

Miss Byrd is president of the Historical Book Club in Greensboro and is also active in the D. A. R. She attended the National D. A. R. Convention in Washington, D. C., in April as delegate from the Rachel Caldwell Chapter. She and her sister, Miss Flossie Byrd, make their home at 2016 Walker Avenue, Greensboro.

After all is said, one's most vivid impressions are those which are based on an almost subconscious memory of personal experiences.

And so, the memory of Doctor Anna M. Gove that I expect to carry through life is not that of a learned physician, or a tireless worker for the common good, or a gracious lady whose poise and manner could grace any social circle; though Doctor Gove was all of these. Rather, I like to think of her as the personal friend that I knew and loved.

Because of her universal love of humanity, I have often heard Doctor Gove spoken of as a democrat. But if by democrat we mean to take universally and literally Jefferson's statement that all men are created equal, then Doctor Gove was anything but a democrat.

Sprung from old and eminent New England lineage and reared by cultured parents, she herself was possessed of an education which few have either the opportunity to acquire or the mental capacity to absorb.

It was from this background that Doctor Gove looked on the world. But she felt and believed with all the power of her heart and mind that preeminence of breeding or birth or education did not, as so many think, confer additional privilege, but on the contrary, imposed additional obligations not borne by the great mass of humanity, and that those to whom God had seen fit to give these unusual privileges were in honor bound to be a little more understanding, a little gentler, a little more considerate of human weakness, a little braver, a little more unselfish, a little more solicitous for the common good than was incumbent upon those not so endowed or blessed.

Never by any word did Doctor Gove give expression to these feelings. Perhaps she was not herself quite aware of them, they had so become instinct with her. But all those who came in contact with her felt not only her greatness of spirit, but even more the glow of her warm personality, though they did not stop to analyse the reason.

What kept Doctor Gove from resembling, even faintly, a saint on a pedestal was an ever-present quiet but patent sense of humor, a soft spoken quip, a manifest feeling of intimate

friendliness that charmed the hearts of high and low and made them feel at ease in her presence.

And so, I like to think of Doctor Gove just as I knew her — at once a joy, a solace and an inspiration.

Alumnae Association Honors Senior Class

Members of the Senior Class were honored by the Alumnae Association at a reception in the Alumnae House, Tuesday, April 6, from 8 to 9:30 p.m.

Mrs. Don Holt (Margaret McConnell '29) of Graham, who spoke to the students at chapel, was a special guest, and a display of her pottery was on exhibit in the library at the Alumnae House. Billie McNeely '48 directed the guests into the library.

Mrs. Stafford Webb (Gertrude Grimes '40), chairman of the Alumnae Social Committee, was in charge of the reception, and Misses Betsy Bullock and Susan Womack, members of the senior class, greeted the guests at the front door. Miss Carolyn Flack '48 presented the seniors to the receiving line which was composed of: Mrs. Boydston Satterfield (Frances Gibson '28), president of the Alumnae Association; Mrs. Holt; Isabel Howard '48, president of the Senior Class; Chancellor W. C. Jackson; Mrs. W. C. Jackson, Miss Katherine Taylor '28, dean of women, and Mrs. Carlton Jesster, Jr. (Betty Brown '31), alumnae secretary.

Miss Virginia Powell '39 was in charge of the refreshments which carried over the lavender and white class colors. Assisting with the serving were: Marjorie Whitley '47, Mrs. Willard Dean (Evan Welch, Com. '42), Theda Pritchett, Com. '39, Mary Lane Siler '43, Betty Moore '46, Louise Turner '46, Jane Summerell '10, Mrs. Glen Adams (Mary Lattimore, Com. '35), and Mrs. L. C. Atkisson (Claire Henley '16).

Other seniors and alumnae who assisted were: Mary Lois Gordon '43; Agnes Coxe '27, Mrs. C. G. Hawkins (Kathleen Pettit, class of '23), Virginia Jackson '29, Elizabeth Hathaway '25, Elizabeth Booker '41, Betsy Umstead '48, Martha Causey '48, Judy Vann '48, Mrs. Robert Bridges (Mary Cecil Higgins '40), President of the Guilford Alumnae Chapter, Mrs. J. I. Foust (Clara McNeill, class of '09), lone Grogan '26, Ruth Gunter '25, and Margaret Flintom, class of '23.

Grace Van Dyke More Retires from College Faculty

by CARLOTTA BARNES JACOBY '26

"One of the greatest satisfactions I have had in my years at the College has been watching my students go out and do a good job of teaching music and knowing that they enjoy doing it." That was the answer of Grace Van Dyke More when she was questioned about her twenty-two years of work as head of music education at Woman's College. Even though she has retired from the college staff and the full professorship that was hers, she goes right on giving her time, thought and labor to music education.

How can one human being ever "get" the way Miss More has been all these many years? For twenty-two years she has been a dynamo of energy; one who has never been known to be sparing with time, thought or interest with any student, past or present. When she turns the pages of her scrapbook, she tells you the name of almost every member of each class. She knows where her students are working, what they are doing, what their married names are, and how many children they have. She attends their weddings, and then pays them visits. A remarkable woman, one with great capacity for love and friendship and the physical stamina to fulfill the inclinations they generate.

Her "getting" that way came about first through inheritance. She comes from a long line of unusually healthy ancestors on both sides. The first More came from Scotland to America in 1772 and was not content to settle hastily. He had to push into the Catskills before he could find land that grew vegetation to suit him! Her own mother possessed boundless energy, both mental and physical, born of vitality far back in the blood-stream. Couple such inheritance with the life-learnings from parents of rare understanding, insight and integrity, and you have Grace Van Dyke More.

It was from parental teaching that she achieved that human understanding and love for people that made her an effective teacher. Not once has a student, teacher, or friend gone to her with a problem who has not left either with that problem on the way toward solution or with courage to face it. She seems to have some kind of telescopic eye that sees not only in the distance but even around corners.

These qualities and characteristics have made her a very integral part of the campus and college life. The fact of her retirement does not mark the end of her activity. She lives in her same comfortable and cheerful apartment at 5 Springdale Court and will continue to do so. "Greensboro is home," she says.

In some way, in addition to a heavy teaching load, she found time to give to various music or other educational organizations. She has held countless workshops in music for the State Department of Public Instruction, taught many extension classes, and has spoken at meetings through the state, ever inspiring and leading in music development.

Miss GRACE VAN DYKE MORE

She was largely responsible for setting up the State Course of Music Study in 1942. Not long before that, she worked out two very fine home-study courses for the Parent-Teacher Association. This was while she was its national music chairman. This office carried with it the pleasant duty of conducting the Mothersingers' program of songs at the national meeting. For six years Miss More was the state director of that group of singers and for many more, the Greensboro director.

She was president of the southern division of the Music Educators National Conference in 1936 and 1937. She was a leader in the organization of the local In-and-About Music Educators Club, taking in the territory around Greensboro, Winston-Salem and High Point. She has been president of the local chapter of Pi Kappa Lambda, the national music fraternity which parallels Phi Beta Kappa, and she is an active member of Delta Kappa Gamma, an honor society for outstanding women in education. (A recent duty of hers was to find a young teacher of proper qualifications to bring from France to Chapel Hill to study during the current year on a Delta Kappa Gamma scholarship fund set up for that purpose.)

Articles by Miss More have appeared in *North Carolina Education*, *Journal of the National Education Association*, *Music Educators Journal*, and *Childhood Education Journal*. A book she wrote primarily for the children in her family, "The More Clan," is evidence of her versatility. It is called "John and Betty Stories," and tells of the pioneer's life in this country between 1772 and 1840. It is her family history but of such general nature and scope that it makes good reading for both the young and the not-so-young.

Her desire to help people stretched far as well as near. She was always eager to work for those causes and contribute to those financial drives that she considered the most worthwhile. Devotion to her church and the Red Cross has always been deep and sincere.

Does it appear she could have ever found time to keep house? Find it she did. Spring housecleaning was never neglected, but she relates that it was sometimes July before she got around to it! Her flare for cooking was amazing, and she battened not an eye over sewing, whether it was a slip or suit.

Her "getting" that way also came about through excellent formal education and constant re-evaluation of her teaching experiences. Both her Bachelor's Degree in Music and her Master's in Education were taken at the University of Illinois. For several years she stayed in that state, teaching in the high school at Champaign, in the State Normal University, and supervising in Lincoln. That, with four years of supervising in Wellington, Kansas, gave her the opportunity to develop unusually fine judgment which led to the wisdom that marked her years afterward.

And what is she doing now, with all this leisure time? Is she getting in some well deserved rest? Is she forgetting Music Education? Never. Right now she is deep in assembling material which will allow the teachers that follow her to build upon the very rich experiences and full professional life that have been hers.

Miss More, we who have been with her at W. C. between 1925 and 1947 are fortunate. Your students, wherever they are—Florida, California, Cuba, Alaska, Germany, Hawaii, England—say, "Thank you for all you've done for us; Stay right there and we'll be seeing you."

Student Government President

Miss Martha Fowler, daughter of Mr. and Mrs. M. M. Fowler, 2033 Club Boulevard, Durham, is president-elect of the Woman's College Student Government. She is a member of the Junior Class. A sister, Miss Ann Fowler, is a member of the Freshman Class, and a cousin, Miss Patsy Fowler, 1021 Monmouth Avenue, is also a Freshman at Woman's College.

Phi Beta Kappa Honors Dr. Sturgis

Dr. Margaret Castex Sturgis, Class of 1903, an outstanding surgeon, was recently made an honorary member of Alpha Chapter of Phi Beta Kappa at Woman's College, U.N.C. Dr. Sturgis is the first honorary member to be chosen for membership.

She attended Woman's College for three years, 1901-1904, and received her Doctor of Medicine Degree from the Woman's Medical College of Pennsylvania in 1915; she became a Fellow of American Surgeons in 1925 and has also been a Fellow of the American Board of Obstetrics and Gynecology since 1932; she did post-graduate study in Europe in 1925.

Dr. Sturgis was clinical professor of gynecology at the Woman's Medical College of Pennsylvania from 1924 to 1942, when she became professor of gynecology. Ill health forced her to resign in 1942 and she was professor emeritus until 1946. While she was teaching at Woman's Medical College, she also served as chief of gynecology and obstetrics at Philadelphia General Hospital and the Woman's Hospital of Philadelphia.

Dr. Sturgis held the distinction of being the only woman professor of gynecology and obstetrics in a medical college in the United States. She has written a number of articles for medical journals and assisted in writing a book on gynecology, besides numerous scientific papers. She and her husband, Dr. Samuel B. Sturgis, also a physician, live in Haverford, Penn.

Commenting on her honor in being elected, Dr. Sturgis said, "I can assure you that nothing has ever come to me throughout my professional life

that I appreciate more than this distinctive honor. I am exceedingly happy that the Woman's College Alpha Chapter of Phi Beta Kappa considers me deserving of this very high recognition."

The formal initiation ceremony for the twenty-four students and Dr. Sturgis was held in the Alumnae House at 4:45 p.m., April 13. Following the initiation there was a formal dinner at Bliss Restaurant. Dr. Sturgis, Mrs. Rose Zimmerman Post, editor of the *Carolinian*, and Dr. Allan Nevins, professor of history at Columbia University, made after-dinner speeches to the group.

Dr. Ruth Collings, president of the local chapter, presided.

Miss Roth Has Unusual Teaching Experience

Mary Louise Roth, '44, who has been Supervisor of Public School Music in Sandoval County, New Mexico, tells of her interesting experience teaching Spanish-American children who are receiving their first experience in the world of music:

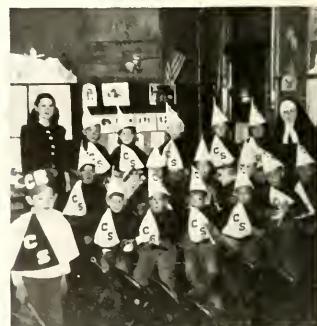

"True, Albuquerque is similar to any other town in the United States, but the State of New Mexico, outside of Albuquerque, is very different. It is rightfully named 'New', and the first evidences of this newness may be found in its public schools. Because of the lack of qualified teachers and lack of funds for school buildings, many teachers in New Mexico public schools are Catholic Nuns and many school buildings belong to the Catholic Church. This dates back for thirty years when the Catholic Church started the first formal education in these rural areas and were the only people willing to sacrifice modern transportation and convenience. The state pays their salaries and rent for the buildings while they, in return, are allowed to teach religion before and after school hours to the Catholic children, who comprise 85% of the group.

"Much of New Mexico is still owned by the federal government. It is sparsely populated and the majority of people are very poor. For this reason, its revenues and taxes are small, making the funds for its schools inadequate. Many communities are establishing local high schools for the first time. Prior to this date, the students who went to high school, attended boarding school in Albuquerque, hence this generation of children are learning to speak English instead of Spanish. It was not surprising, therefore, to find that students in the schools where I work were not particularly alarmed over not knowing *America*, *Dixie*, *Old Black Joe*, and such familiar songs as the average American knows. They had never had an opportunity to learn because previous teaching has been concentrated on the three R's.

"Because of their language difficulty they are slow, but fortunately they like music and have progressed far beyond my expectations. The administrative staff has been kind and generous in their encouragement, both morally and financially. The classroom teachers, some of them Nuns and others lay-teachers, have cooperated beautifully. The boys and girls in some schools have progressed more rapidly than others but they were also more advanced in other subjects.

"They have learned the familiar folk songs; they have received experience in rhythmic and creative activities and folk dancing; listen to and like records of a good symphony and an occasional opera without giggling; and some of the group are actually reading music by syllable, while others are preparing to do so before this school term is completed.

"This sounds as if it might be the story of some far off land but it is not. Some of the schools are within 17 miles of Albuquerque, the largest town in New Mexico. The most distant school is 65 miles away. I drive to work every day from Albuquerque since my husband is here in the University. It is a new and enlightening experience—certainly not like anything I dreamed I might ever be doing when I used to trudge my way to Curry or talk of in the 'gab sessions' when I was at Woman's College."

Mr. Earl Hall Retires After Twenty-four Years

Mr. Earl H. Hall, professor of Botany at Woman's College for twenty-four years, retired in June, 1947, and makes his home in Roxboro, N. C.

Before coming to Woman's College, Mr. Hall taught thirteen years in high school and also at the University of Chicago and Eastern Illinois Teachers College.

He was active in such organizations as the State Academy of Science, State Bird Club, Nature Association, and the National Forestry Association. He had published in the journal of the Ecological Association of Guilford County an article entitled "Ten Years of Bird Study".

Mr. Hall's work in Greensboro was not confined to the College. He was much sought after as a speaker for local and state clubs and was for many years an active young people's worker at College Place Methodist Church.

For twenty-four years of faithful service to our college we are grateful to him and in his further pursuit of his own specialized field our best wishes go with him.

An Appreciation of E. H. Hall

by FRANCES FERGUSON '49

Have you heard people who had done a job well for many years suddenly say, "Oh, well it doesn't matter what I do now; I'm going to retire in a short time"? And with that, the enthusiasm for their work was gone. But such was not the case of one teacher at the Woman's College of the University of North Carolina. This teacher, for many years, made required science courses a privilege, and no one could have been a more enthusiastic teacher than he, even in his last year at the Woman's College. Mr. Earl H. Hall, of the Botany Department and teacher of Nature Study, can never sever himself from the college nor from Greensboro itself, although he now makes his home in Roxboro, N. C. Mr. Hall laid the foundations for genuine appreciation and understanding of nature too soundly and had too profound an influence on the people of his community as well as the girls in his classes, ever to be forgotten.

In the botany classes girls learned not only the scientific classifications of plants and their life cycles, but also learned about where to find and how to grow many unusual plants, how to appreciate, care for, and use to the best advantage all sorts of local flora. In Nature Study classes the girls were fascinated by the new things they found in so many different fields. When it came to Astronomy the girls made close friends with the constellations from the roof of the Science Building. Did you ever know why certain constella-

tions are associated with certain months; why the moon can be seen on some nights early, some late, and some not at all; how weather can be predicted; the fascinating legends of the sky population; why we have different seasons in different localities? The girls in Mr. Hall's classes learned these facts and stories and much else besides. They learned how to recognize birds by appearance, calls, and habitat, and how best to care for their bird friends. Flowers and plants became personalities. Did you ever see the little bald-headed man, wearing an orange shawl, sitting in a tub in the center of each tiny violet? Did you ever see "finger-nail files" growing in the woods? Do you know what delightful toys can be made from the simpler plants? We had our eyes opened to the wealth of new joys right at our finger tips. The very earth beneath us yielded vast knowledge of ancient history and much interesting study. We never had seen a man who knew so much about so many things or who had such everlasting energy. Climbing up and down, hopping creeks, seeing every detail, there was Mr. Hall, always a good five feet in the lead!

In the town of Greensboro Mr. Hall was a popular speaker on nature subjects, and a respected authority throughout the state on bird lore, local flora, and the appreciation and care of nature. Every field trip was an exciting excursion. Mr. Hall took time to talk over problems, laugh at jokes (being quite a practical joker himself), and encourage any of the girls. He was always cheerful and optimistic and never seemed irritable or showed his feelings. Mr. Hall was not just a teacher and respected authority, he was our friend. The last field trip he took with a class at the Woman's College, the girls had a picnic for him and the year closed in festive spirits. There was never one note of waning interest from Mr. Hall.

In the years to come, many a child

will find happiness in nature and will make fast friends with birds, flowers, stars, and the world about him because his mother or his teacher has taught him the facts about nature and has helped him develop lasting interest and appreciation for nature. His teacher or mother will have been a student of Mr. Hall some years before, and she will now realize how far reaching has been the influence of her teacher.

66% of Woman's College Graduates Marry

by ANNE WALL '49

The table below shows the rates of marriages among Woman's College graduates for the given years and the averages of the various periods. These are believed to be fairly representative years. They show the years when marriage rates as a general rule have increased and decreased and they show marriage rates of the earliest graduating classes and of some of the latest.

Year	Marriage Rate	Average
1893	70%	
1894	88%	
1895	52%	63%
1896	53%	
1908	68%	
1909	74%	
1910	80%	70%
1911	58%	
1916	79%	
1917	76%	
1918	66%	72%
1919	71%	
1920	66%	
1925	69%	
1926	73%	
1927	67%	69%
1928	68%	
1931	72%	
1932	62%	
1933	68%	68%
1934	69%	
1941	57%	
1942	55%	55%
1943	52%	

On the whole, as can be seen, the marriage rates of Woman's College graduates have remained fairly constant over this fifty-year period. Also, it can be seen that never has the marriage rate dropped below one-half of the graduating class and seldom below two-thirds. Who could ask for a better record than this!

Let all who claim that a graduate of a woman's college is doomed to spinsterhood take heed of the record of the Woman's College of the University of North Carolina and see that not only do our graduates marry but that they marry at an average rate cf 66 2/3% and better !!!

Weatherspoon Gallery Association Has Made Valuable Contribution

by ALICE SAWYER COOPER

Past President
Weatherspoon Gallery Association

Six years ago, on March 7, 1942, the Weatherspoon Gallery Association was organized for the purpose of providing a channel through which the alumnae and friends of Woman's College could aid the art department of the College in its efforts to meet the demands for art exhibitions, lectures on art, and for a permanent art collection.

At the organization meeting of the Association, Mrs. Rosa Blakeney Parker, chairman of the organization committee said: "In celebration of the fiftieth anniversary of Woman's College we bring you this beginning of an organization. It is established in honor of the memory of one who pioneered in the field of art in North Carolina, the sister of the founder of Woman's College, Mrs. Elizabeth McIver Weatherspoon. It is now small and needs your enthusiastic support. How strong will you help it to grow?" The response to that appeal from alumnae and art lovers has enabled the Weatherspoon Gallery Association to chalk up the following achievements in six years:

It has purchased the works of art listed below and presented them to the college as the nucleus of a permanent collection.

In collaboration with the Alumnae Association it has had a portrait of Dr. McIver painted for the Chancellor's office.

It has started a scholarship fund for art students.

It has founded an annual International Textile Exhibition. The Textile Exhibition, which has now been held for four years, has won the interest and support of leaders in this industry by opening to manufacturers a new source of original American designs. It is the only exhibit in its field open to all persons; anyone can send in his work and have it judged by experts. The Weatherspoon Gallery Association hopes that in making available to North Carolina mills the best creations of contemporary designers, it is helping the textile industry in this state to win preminence in the making of fabrics which will be recognized as having the highest artistic merit.

Now that the Textile Exhibit has become an established event, the Association would like to initiate a similar exhibit in wood products, where the finest examples of furniture made in North Carolina could be shown, thus providing another meeting place for art and industry. Before this can be done, however, a new gallery is essential.

In holding any art exhibit at Woman's College the lack of adequate gallery space and facilities is a heavy handicap which the devoted work of

the Art Department staff can only partially overcome. The present gallery is the former physics lecture room in McIver Building, with raised tiers around half the room in a semi-circle. For structural reasons the tiers cannot be removed, though they make it difficult to present any exhibit effectively.

The chief aim now of the Weatherspoon Gallery Association is to secure an art gallery worthy of Woman's College and North Carolina. This gallery should be part of an Arts Building. For years Woman's College has had a Music Building, and now the time has come, the Association believes, when growing public interest in the visual arts should be recognized by the erection of an Arts Building.

A former student in the Art Department, who took her degree at Columbia in architecture, planned an art building for Woman's College as her thesis and worked out every detail most skillfully. In these plans an art gallery thirty by sixty feet is provided, with a lecture room close at hand.

Such a building is a dream which can be realized only by raising funds for this purpose or securing an appropriation from the legislature. Either way much work will have to be done. As a step toward raising this fund, and toward making more effective use of the present gallery in the meantime, the Association's immediate objective is to provide the salary for a Curator of the Weatherspoon Gallery who will act also as Executive Secretary of the Association and work toward securing funds for the Art Building.

Such a secretary is especially needed because the leadership of the Association has all along been taken by very busy people who could not give the time its needs really demanded—such able men as the present president, Dr. Marc Friedlander of the English department, and the treasurer, Dr. Albert Keister of the economics department, who has held this office for six years.

Dr. W. C. Jackson has from the first given the Weatherspoon Gallery Association his friendly interest and invaluable support. About its chief aim he has this to say: "The extraordinary growth and development of our art department has overrun our facilities. The demand is urgent for more space, especially for the Weatherspoon Gallery. The interest in

art is widespread in North Carolina today. It is an appropriate time for special effort to be made for this College to serve the state to an even larger degree than at present.

"An art building at Woman's College is much needed. It has a strong and justified appeal to those who are interested in the field of art . . . not only the College but the entire state would greatly profit by the securing of an adequate and appropriate building for the housing of our Art Department and The Weatherspoon Gallery."

Ruth Wilson is named Raleigh's "First Lady of the Year"

Miss Ruth C. Wilson, class of '24, the only woman serving on the City Council of Raleigh, was honored in March by being named Raleigh's "First Lady of the Year." The award was made in recognition of her good citizenship, leadership, and accomplishments in civic undertakings.

She was elected to the City Council of Raleigh last May, and was not only the only woman nominee, but led the entire ticket. According to the *News and Observer*, this election was the most spirited and the closest one held in Raleigh in years.

Miss Wilson is secretary and treasurer of the Sanders Motor Company in Raleigh. She is president of the Y.W.C.A., on the Board of Directors of the Community Chest of Raleigh, a member of the Business and Professional Woman's Club, Raleigh Credit Women's Club, and an active member of the Baptist Church.

May Day Celebration is a Time-Honored Tradition

BY MARTHA JANE GARRIS '49

One of the loveliest events May offers the students at Woman's College is May Day with the traditional May Queen. This is a senior class sponsored event, and early in the fall the seniors busy themselves with the election of their May Queen, her court, and the May Day chairman. Francis Norris has been elected queen and Peggy Clemmer has been elected May Day chairman for this year. These May Day leaders, in addition to the May court members, are elected by the senior class in their regular fall elections.

May Day has not always been conducted in this fashion. In fact, the history of May Day at the college is an interesting and fascinating one. The first May celebration was the magnificent May Day fete of 1912 given under the auspices of the senior class that year. This class conceived the idea of this fete in their sophomore year, and the purpose they assigned the fete was the reproduction of a typical English May Day as a "farewell labor of love". Mrs. Mary Settle Sharpe directed the fete, which was acclaimed to be the first of its kind given by any southern state, and the largest college pageant ever to be given in America.

Every possible effort was exerted to assure that the pageant would be typical in its reproduction of an old English May. The Knutsford Morris Dances and old English folk songs were ordered from England. From the London Guilds and our Library of Congress came valuable suggestions. The British Museum sent helpful data on flag coloring and equipment for the Morris Dancers.

Numerous committees directed the various aspects of the fete. Several committees were occupied with the making of thousands of costumes and equipment for the participants in the fete; the manual training department did the stenciling for the herald's suits; Misses Laura McAlister and Eva Washburne were the able directors of dancing, and Mrs. Lizzie Weatherspoon did a superb job as chairman of the committee on floral decorations. The public was informed of the fete through the wide-spread publicity program carried on by the college under Miss Annie Petty's skillful guidance.

The pageant was a glorious success. Three thousand spectators were present to watch a thousand students give a colorful, five-hour program which began with a procession that personified every grade of English society and represented the best traditions of the English speaking people. This procession ended on Curry Court and was climaxed by the crowning of the Lord and Lady of May. Afterwards singing, dancing, and games were performed by the Curry school children. Between four and six o'clock the spectators enjoyed their choices of four of Shakespeare's plays which were drama-

tized for the occasion by Mr. and Mrs. Robert Dick Douglas.

There was such general pleasure over the success of the fete that the college authorities decided the fete would be made a quadrennial campus event. The 1916 pageant surpassed the first one in grandeur because 1916 also marked the Shakespearean tercentenary. The occurrence of World War I necessitated a reduction of college expenditures, therefore, the quadrennial fete, a costly event, was eliminated from the college program.

May Day next occurred in 1921 and 1922 as the climaxing feature of Field Day which has become a popular event on campus due to the increasing emphasis this college was giving to physical education. The student body at regular mass meetings elected from among their number these two May Queens, Jennie Clark and Florrie Wilson, respectively for the years 1921 and 1922. May Day as a part of Field Day was characterized by athletic and folk dances. In 1923, it was eliminated altogether from the Field Day program in order to give more time to athletics proper.

May Day did not appear again until 1926, when it was revived by the senior class as a permanent tradition. In 1939, three alterations were made in the May Day. Henceforth, May leaders were to be elected by and from the senior class, the election of a May Day chairman was started, and it was agreed that the identity of the Queen should be kept a secret. This third innovation is no longer observed today, however. Thus May Day since 1926 has been an annual event on this campus, and since 1939 has been a senior class sponsored event with each class giving its own version of the May Day. The May Queen and the May Day are truly a time-honored tradition at our Woman's College.

My One Desire!

BY LOTTIE HOOD '33

I don't care for starlight, the moon may cease to shine;
It's only for you, love, that my heart pines.
The darkest night would become beautiful, if as an angel from the sky,
You came so wonderful to be.

Chorus:

My one desire is to be with you each minute of the day,
My one desire is to hear you sweetly say—
Life is beautiful, love is divine, the night would be marvelous, if you were mine;
My one desire is to know what I must do to win your heart,
My one desire is to be with you sweetly;
You've started a love-glow burning, let's kindle that spark to a flame,
My one desire is your love to claim!

Alumna in Balboa writes about Panama Base Dispute

Hallie Beavers '15, who lives in Balboa, Canal Zone, has made such interesting comments on the dispute over Panama bases, that we pass them on:

"You no doubt know all about the argument over bases in Panama as reported by the press; how about the middle of December our Ambassador Hines signed an agreement with Acting Foreign Minister Filos (Minister Alfaro had resigned rather than put his name to the agreement) giving the U. S. fourteen defense bases in Panama for an annual rental of \$43,000. All the rest of the 134 defense sites we occupied temporarily during the war, had already been returned to Panama.

"The principal objection to the agreement seemed to be the ten-year lease of Rio Ilate—the big air base—which could be renewed for another ten years. The Army contemplated building this into a \$25,000,000 bomber base and felt the great outlay of money justified the extension clause.

"President Jimenez thought he had enough votes pledged to assure the passage of the agreement by the National Assembly. The revenue and the employment supplied to the natives meant a great deal to certain factions. Also the 600 miles of good roads the United States should build to join the bases would be just what Panama's undeveloped interior needed. The only organized resistance came from the students.

"As soon as they learned of the signing of the agreement, the students of the National University and high school went on a 'strike of sorrow.' Encouraged by pep-talks from anti-Yankee professors, they were out for trouble. Armed with sticks, stones, knives and one red flag, they headed for the Plaza Santa Ann to try to prevent the passage of the agreement by the National Assembly then in session to either accept or reject the measure.

"The administration apparently instructed the police to break up the anti-demonstration. The police handled the mob in such a manner as to win support for the agitators. One pupil was severely wounded, believed to be fatally at the time, but he has survived although he is still under medical care. Had he died he would have been a martyr to the cause. Several policemen were hospitalized. From this episode on, a calm discussion of the agreement was impossible. With presi-

dential elections scheduled for May, no politician cared to jeopardize his chance of election. When the vote was taken not one vote was cast in favor of the agreement. Assembly President Arosemena is quoted as saying, 'Nobody will vote for bases when they can look out the window and see 10,000 boys sharpening their knives.' The students and their professors, egged on by the Communist-tinged People's Party, had won their objective.

"Be it said to the credit of our State Department there was immediate action. They did not wait for an official notification of the Assembly's action but announced that all fourteen bases in question would be evacuated as speedily as possible. The convoys began to move. Shifts worked around the clock to speed up the departure. This seemed to be a surprise to many people.

"Since there was nothing further to argue about, the demonstrating students returned to their classes, much the poorer in scholarship for their prolonged absence. It is reported that a larger percentage than usual failed this year.

"During the demonstrations, all service people were restricted from Panama. Many civilians also stayed away because if you parked your new car for an evening show as likely as not, when you came back to it, there would be slashed tires or ugly scratches on the paint job. Feelings ran rather high. This came during the Christmas shopping season, and as a result, the merchandise stocked for this season was not sold. The merchants and businessmen began to feel the economic pressure at once. There have been numerous sales since the new year, probably to convert unneeded merchandise into cash. Americans are still conspicuous by their absence on the streets of Panama City and Colon.

"There have been articles in the local papers telling how many millions of dollars the budget would be reduced for the coming year. Suggestions have been made that new negotiations were in order. There seems to be some fear that a new proposed, sea-level canal might be built elsewhere—Nicaragua, Mexico or Colombia. Costa Rica is reported to be offering favorable terms for negotiations for bases. In some circles, it was believed that the Army had to have the bases and so would agree to terms more favorable to Panama. All in all, things just have not worked out according to plan. We do need bases for protection of the Canal, but with jet planes, a few hundred miles today means very little. After the May elections may be too late to interest our Army in the evacuated bases. Time will tell what will happen next."

London as I Saw It

BY RUTH GUNTER '14

Last summer I had the opportunity of going to London to visit my nephew, who was at that time the representative of the United States Treasury in England. Not being able to secure passage on a good ship, I had to resort to one that had been used as a troop ship during the war and still had that sort of accommodations. (I had twenty-two room mates in my cabin!) Although there were many nationalities on board, there was a fine friendly atmosphere throughout the trip. In talking with the many different kinds of people, I felt that this crossing had greatly broadened my viewpoint and thus helped me to become a better "world citizen."

With my memories of London as I had seen it in 1938, of course the first thing that impressed me on my arrival was the bombed areas, which met my eyes on every hand. One who has not seen them cannot really take in what they are like. Practically every one to whom I talked had either his business or home hit. One school I visited had one building destroyed. The school had been evacuated and the plant had been occupied by the Wrens. In another school I saw the bomb shelter and heard the teachers describe what it was like when they and the children all went to the country.

In contrast to the bombed areas, something that impressed me was the gardens. In spite of the hardships and deprivations the people still have lovely flowers. Some parts of the gardens are often used for growing vegetables, but there are still many "geraniums red and delphiniums blue" as well as many, many other kinds of beautiful flowers.

One thing I never became accustomed to was driving on the left side of the road. Although it kept my heart in my mouth all the time, I did not see a single traffic accident while I was over there.

In observing the people, I found that they, as a whole, appeared more reserved than Americans as a whole. However, the ones I met were most friendly and cordial. They do not "rush" like we do. The "tea" habit every afternoon I liked very much. It is so sociable and relaxing. Considering the strict rationing, it is amazing what lovely things they can prepare for tea. Tea served at movies

and in the theatres to me was a very nice idea too.

What impressed me most about the people was their patience and politeness. In going marketing with my niece, I had occasion to observe these characteristics. In contrast to our going to one or two stores and buying a week's provisions, my niece (along with the English housewife) would have to go to the market for meat; to the dairy for butter, eggs, and bread; to the fish monger's for fish; to the green grocer's for fresh fruits and vegetables; and to the provision store for tea, coffee, canned goods, etc. There was a queue at every place. On all sides I found the people patient and polite in spite of the queues and the strict rationing of both food and clothing.

In order to help realize how rigid the food rationing is I bought my ration for one week by itself. This is what one adult is allowed: two thin slices of bacon, two ounces of butter, two ounces of margarine, one ounce of lard, one egg, one cup of sugar, one and one-half pints of milk, two ounces of tea, two ounces of cheese, one-fourth jar of jam, three small loaves of bread, one small cake of soap, twenty cents worth of meat (two medium or three small lamb chops or one-half pound of steak). Besides the above each person is allowed eight points for canned goods. (A number two can of fruit is twenty points). Potatoes, green vegetables and fish were not rationed at that time, but potatoes are now on the rationing list.

As for clothing, each adult is allowed forty-eight points a year. A man's suit requires twenty-six points, an overcoat eighteen, shoes nine, shirt seven, etc. A woman's suit takes eighteen points, a coat eighteen, blouse six, shoes seven, a cotton dress seven, etc. Points for sheets, pillow cases, and towels also have to come out of the forty-eight points.

I was glad to see that with all the rationing, the babies and children have special consideration. Babies are given free orange juice and free cod liver oil by the government. Children have free milk at school and are allowed extra coupons for clothing.

The way the English stood what they did during the war and the way they are facing the hardships following the war cause me to have the utmost admiration and respect for them.

I had nothing but happy impressions on my nice trips to Windsor Castle, to Hampton Court, to Canterbury, to Devon, to Cornwall, to Oxford, and to Stratford where I saw a wonderful production of "Twelfth Night." On my visit to the House of Commons I was much impressed by the formality and the dispatch with which the proceedings were handled.

My flight home on a Lockheed Constellation of the Pan American World Airways, leaving London one evening at six o'clock, having dinner at Shannon, Ireland, breakfast at Gander, New Newfoundland, lunch in New York City and arriving in Greensboro the next night was one of the most thrilling experiences of my life and made me realize in what a wonderful age we are living.

News from Local Alumnae Chapters

Atlanta, Ga.

MEETING ONE

At the February meeting of the Atlanta Alumnae Chapter, officers were elected for the coming year: Mrs. C. E. Montague (Catherine Wharton '31), president; Mrs. T. A. Brannon (Etta Allred, class of '08), first vice-president; Ruth Webb '47, second vice-president; Mrs. R. E. Roberts, (Nancy Williard '46), secretary; Mrs. Joe Jernigan (Nell Tyson '39), treasurer. Mrs. C. D. Mauney, (Frances White '31), presided.

The chapter plans to carry on a campaign to interest in Woman's College prospective high school girls who plan to enter college next fall.

A luncheon was planned for March.

Alamance Banquet

The annual dinner meeting of the Alamance Alumnae Chapter was held in the Green Room of the Alamance Hotel, Wednesday, March 17. Mrs. D. R. Fornville (Anne Watkins '14) presided and welcomed the alumnae, their husbands and guests. Miss Katherine Taylor '28, new Dean of Women at Woman's College, brought greetings from the College, and Mrs. Betty Brown Jester, Alumnae Secretary, brought the group up to date on the expansion and changes at the College, activities of the Alumnae Association, and plans for the future.

Judge E. S. W. Cameron gave the invocation, after which Mrs. Fornville recognized Mrs. A. L. Combs, who entered the College in the fall of 1892.

Prior to the program which included the singing of the college song and two piano selections by Betty Jane Carr '49 of Burlington, dinner was served in three courses. The college colors, gold and white, were carried out in the table decorations, menus, and favors.

Mrs. J. G. McAdams (Jean Holmes '45) is chairman of the Alamance Chapter, and others responsible for the banquet were: decorations, Mrs. James Flatley (Sadie Moyle Suggs '45); tickets, Eleanor Horner '40; publicity, Muriel Freedman '45; printing, Mrs. D. R. Fornville Jr. (Virginia Harrelson '42); programs, Mrs. Felix O. Bell, Jr. (Betty Holt '45).

Buncombe County Luncheon

The Buncombe County Chapter of Woman's College of U.N.C. Alumnae Association held its spring luncheon Saturday, April 3, at the Battery Park Hotel with 50 members attending. Mrs. Albert H. Lathrop (Virginia Terrell

'23), chairman, presided and welcomed the group. Mrs. J. S. Williams (Anna Meade Michaux, class of '96), gave the invocation.

Special alumnae recognized were Mrs. Williams, as oldest alumna in point of service, and Miss Gail Tennant, as youngest member of the group, having been graduated in February '48. Two alumnae recognized for work in education in Asheville were Mrs. M. A. James (Evelyn Pope '25), member of the Board of Asheville Biltmore College, and Mrs. E. G. Lee (Alice Harrold '24), member of the Asheville City School Board. Other special guests included Miss Annie Westall, president of the National Alumnae Association of Randolph-Macon Woman's College, Lynchburg, Va.

Officers elected for the coming year were: Mrs. V. W. Hewitt (Frances Devault, class of '33), chairman; Miss Trudy Bryan '47, vice-chairman; Mrs. J. Franklin Williams (Joycelyn McDowell '22), secretary-treasurer.

J. W. Byers, Superintendent of the Asheville City Schools, spoke on the preparation that the Asheville high schools give students for college, and cited the success of Asheville high school students in various colleges in the country. He emphasized the need for federal aid to education in North Carolina.

Miss Marjorie Hood '26 of the library staff of W.C.U.N.C. explained two collections being made at the library that are of special interest to women—the Woman's Collection and the College Collection.

Mrs. Carlton Jester, Jr. (Betty Brown '31), of Greensboro, executive secretary of the Alumnae Association, spoke on the building program, changes in the curriculum, and plans and projects for the Alumnae Association.

The luncheon table was decorated with jonquils, bridal wreath and yellow candles, carrying out the college colors of gold and white.

High Point

The reorganization of the High Point Alumnae Chapter took place at a meeting in the Y.W.C.A., Monday, April 5, at 8 P.M. Approximately fifty girls were present and Miss Mary Frances Sutton '45, acting chairman, presided. Miss Katherine Taylor, Dean of Women, and Mrs. Betty Brown Jester, Alumnae Secretary, were speakers for the occasion; and Miss Bernice Draper, of the Department of History at Woman's College, was a special guest.

Mrs. Alfred Moffit, Jr. (Louise Bell '36) was elected president of the new group; Mrs. W. S. Hayes (Christine Faulk '44), vice-president; Miss Erma Siceloff '44, secretary-treasurer. Plans were discussed for having two meetings a year in the Fall and Spring.

Miss Taylor discussed the work of the Residence Department and brought out the fact that students at Woman's College have advantages of both a large and small school with the residence halls as the social unit.

Mrs. Jester discussed the building program at the College, changes in the curriculum, activities in the Alumnae Office

and told of plans for the future for the Alumnae Association.

Punch, sandwiches, and cookies were served by the hostesses Mrs. C. F. Tomlinson (May Lovelace '07), Mrs. Ernest Wall (Mary Lee Wilson '15), and Mrs. Horace Haworth (Frances Morris '17).

New Jersey Chapter

Miss Vera Largent, of the Department of History at Woman's College, was the guest speaker at the Spring Meeting of the New Jersey Alumnae Chapter, Saturday, April 17, 1948, at 2:30 p.m. at the Y.W.C.A. in Newark. Twenty-five girls

MISS VERA LARGENT

were present, and Mrs. Richard P. McCormick (Katheriney Lewis '44) presided.

At the business meeting the following officers were elected for the year: President, Mrs. Albert J. Bartlett (Claire McRoberts '44); vice president, Miss Eleanor Barton '27; secretary-treasurer, Mrs. Peter L. DeGregory (Jean Dickinson '44).

Miss Largent told of the building program and expansion of the college; she pointed out several curriculum changes that have taken place in the past year; she mentioned personnel changes at the college and brought messages from college friends and the administration. The main subject of her talk was the Harriet Elliott Social Science Forum, which she summarized. She told interesting Forum sidelights, and explained the preparation that was done before the Forum in acquainting the students with the problems to be discussed by the experts. In conclusion, Miss Largent said, "Miss Elliott would, as you, who knew her passion for democracy and public service, can understand, feel honored and happy to have this movement going on in her name. The plans are under way for next year probably for fall. It is hoped that the

Alumnae Association will again cooperate and certainly we hope that many of you will come."

Tea, decorated cakes and sandwiches, reminiscent of Woman's College parties, were served by the social committee, headed by Miss Doris McRoberts and Mrs. Bartlett.

Miss Largent was guest of Mrs. McCormick Saturday evening for dinner at her home in New Brunswick.

Richmond, Virginia

The Richmond Chapter of the Woman's College Alumnae met Thursday, April 15, at 8 P.M., at the home of Mrs. Robert Wallerstein (Hilda Weil '26). Miss Jane Grogan and Mrs. Betty Brown Jester of Greensboro, were guests, and about twenty alumnae were present for the meeting.

In the absence of the Chairman, Mrs. H. C. Lee (Dovie Kinlaw '40), Miss Eleanor Bundy '39 presided and introduced Mrs. Wallerstein, program chairman, who presented the guests.

Miss Grogan discussed the Residence Department of the College and the Harriet Elliott Social Science Forum. Mrs. Jester brought the group up to date on the expansion and growth of the College, and told of plans for the future of the Alumnae Association.

Officers for the coming year were elected as follows: president, Mrs. J. R. Ruffin (Esther Shreve '31); vice-president, Mrs. Frances Roberts Ferrell '33; secretary-treasurer, Miss Dorothy Nelms '46.

Ice cream with crushed strawberries and cookies were served.

Mrs. Jester and Miss Grogan were house guests of Mrs. Robert L. Wallerstein while they were in Richmond.

Thomasville

The Thomasville Alumnae Chapter gave a tea honoring the girls of the Thomasville High School senior class, Wednesday, January 28, at 2:30 P.M., in the High School Cafeteria. Mrs. J. S. Green, (Nannie Earle '25) presided in the absence of Mrs. W. S. Horton (Jeanette Davis '33), who is chairman of the group. She welcomed the guests and visitors and introduced Mrs. Mary Green Matthews '14, who was the first student from Thomasville to attend Woman's College. Mrs. Matthews introduced Betty Brown Jester '31, Alumnae Secretary, who presented the speakers: Betsy Bullock '48, Rocky Mount, president of the student government association, who told about the student government program and social life at the college; Elizabeth Ann Collett '49, Thomasville, who described some phases of the work in physical education at the college; Marion Dillon '48, Thomasville, who told of work in the art department at W.C.; Eunice Hepler '49, Thomasville, who gave interesting facts about the home economics department; and Ada Sue McBane '48, Greensboro, who presented the work of the department of secretarial science.

Mr. C. W. Phillips, Director of Public Relations at Woman's College, spoke to the group briefly on the importance of going to college.

Ice cream, cake, coffee and nuts were served to the group. Mrs. J. S. Hicks (Frances Pierce) was in charge of refreshments.

Wake County

A reorganization meeting of the Wake County Alumnae Chapter was held at the YMCA at State College, Raleigh, Monday, April 5, at 8 P.M., Mrs. Boydston Satterfield (Frances Gibson '28), president of the General Alumnae Association, spoke to the group about activities at the college and the work of the Alumnae Association.

Mrs. L. H. Swain (Virginia Sloan '28) presided and Mrs. Thomas Newton Bradford, Jr. (Elizabeth Patten '41) was elected temporary chairman of the reorganization committee. Other members of the committee are Judy Barrett '42, Jean Brown '44 and Ellen Taylor '44.

The group made plans for a second meeting early in May.

Meetings Scheduled

Rhea Olga Featherston, class of '03, writes of her work in physical education from Santa Monica, California: "After attending Woman's College, I graduated from the Indianapolis, Indiana, Normal, The Methodist Hospital, Nurses Training and the Posse Gymnasium in Boston, Massachusetts. I moved to Santa Monica, California, where I have lived since, and have taught in the Physical Education Department of the Santa Monica High School specializing in corrective primary education and dancing thirty years.

"From the west coast it is a natural step to the Orient which I have covered fairly thoroughly during my summer vacations. Along with my major interest in archeology I made a study of the dances of the lands I've visited including China, Japan, Dutch East Indies, Philippines and Hawaii. My interest in oriental dancing was heightened by studies I did with Ruth St. Denis and Ted Shawn.

"A number of years ago we started to have a Fiesta each spring. Then I started my trips to Mexico. The first time I attended the University of Mexico, I studied with one of the teachers who had made a collection of the native dances throughout Mexico. I was able to continue my studies on my other trips and also attended many Fiestas in various parts of Mexico. On one of my early trips the department of education gave me manuscript copies of most of their native dances, each with native drawings to show costumes and figures of the dance. We are now preparing our Fiesta which will also carry a Centennial flavor as California is celebrating its early gold rush and settlement of hundred years ago.

"While I enjoy the dancing classes very much, my corrective work is equally interesting and I consider myself very fortunate to have assisted Dr. Charles LeRoy Lowman, now President Emeritus of our Orthopedic Hospital of Los Angeles, when it had its beginning. I've tried to add to the pleasure of my corrective students by developing a program of rhythm fitted to their capabilities. California is beautiful and I love it, but nothing thrills me as much as the State Song of North Carolina. I hope to visit there again and will certainly come to Greensboro and visit the college."

Bettie Lee Sanders, class of 1903, writes from Smithfield, "My hobby now is keeping the small town library and seeing it grow so very rapidly in the ten or eleven years I have been its librarian. I have typed cards for over 7,000 books since coming in as librarian. The Library began when I was a charter member of the Woman's Club, the younger members having the beginning of a library as their project away back in 1915."

1929

Everlasting President
Virginia Kirkpatrick,

1618 Iredell Drive, Raleigh, N. C.

Alene (Alphin) Mann, class of '29, writes from her home in Lexington, Va., "In September 1928 I became the secretary in the Superintendent's office at the Virginia Military Institute and am still holding down the job. In Mr. Forney's business class in 1925 I was the only student from Virginia and he always called me 'Miss Virginia,' probably not knowing that my middle name was Virginia. I was a few days late getting to his class, having some difficulty getting my course straightened out, and I recall that when I walked in he asked 'Where have you been? Must have stopped on the way to pray?' I remember how terribly embarrassed I was, but later we became fine friends and I consider that I had as good a business education as it is possible to get in one session. On February 20, 1932, I married Major (Lt. Col.) J. H. C. Mann of the V. M. I. faculty. I recall that my boss at the time said he was glad we were marrying so Johnny would stop hanging around the office."

in action between Singapore and Batavia in February, 1942," when he was acting as First Lieutenant of the Li Wo. He was the only officer saved and had very harrowing experiences getting back to land and wandering in the jungle for weeks. Mat-Moore writes most interesting letters to her family about the gay round of parties in the Colony during the Christmas season. She says there's very little of the "new look" in women's clothes in China.

Virginia Tucker assumed her duties as aerodynamicist with Northrop Aviation, Hawthorne, California, May 1. Until her resignation in October, 1947, she was supervisor of computers with N.A.C.A. at Langley Field, Va.

She is also active in the Alumnae Association—being on the Alumnae Board of Trustees.

Augusta (Raymond) Brett writes from her home in Franklin, Va., interesting news of her family: "After seventeen years, I am wondering if you still remember me and all those good old days when we shared 'our mutual woes' in Miss Boddie's Latin and Mr. Hall's English? We didn't know it then, but didn't we have fun? I just wish I could go over all of it again. I have two little girls. They are both very bright (so everyone says) and we feel so thankful that they are. Rachel was 8 in October. She learned to read when she was about 3½ and is a regular book worm. Mary Elizabeth hasn't started to school yet. She will be nearly 7 when she does start. She says she wants to be a mother when she gets grown. The idea of having a big reunion for everybody strikes me just right. I, for one, would be delighted to go back to college again, but I doubt if I could find my way around the campus now without the map you enclosed in a recent letter."

Helen (Seifert) Kafer, who lives in New Bern, has three children, Oscar and Helen 11, and Charles William (Bill), 3. Her husband is a doctor in New Bern. Helen is active in P.T.A. school work, woman's club and church work.

IV and Stephen (we call them Billy and Teeny) and my husband, Captain in the Infantry now working with C.I.C. (Counter Intelligence), and I am teaching in a two-room, 31 student, school for American children. I have 4th-8th grades and it really is fun. Having a wonderful time."

Roselyn (Dobbins) Wallace, who has been living in Shalimar, Florida, is spending a few months with her mother. She will then join her husband, Lt. Col. James Wallace who is stationed in Alaska.

Barbara Lincoln writes from Redding, California, "Even out in the wild (?) west one runs into college friends. Eileen Cassidy, class of '34,

Candace Hodges, two-year-old daughter of Mr. and Mrs. Harry Hodges (Catherine Taylor, '34) Sao Paulo Brazil, S. A.

who was in my class for three months as a freshman, be-friended me in San Francisco when I returned from overseas. And there also I literally ran into **Gertrude (Turner) Parker** '34 of my class too! Incidentally we are sold on California for living anywhere west of the east; and, of course, North Carolina anywhere east of the west! My work is fun but hard. The fun comes in through the beauty of this mountainous country. I drive in constantly. I am working for Veterans Administration, mostly with veterans who have recovered from mental illness incurred during or following service. A year ago I wrote from Germany and did not extend my invitation because of the grimness of my surroundings. This year I really mean I'd warmly welcome any college friend to this lovely spot! Born to Mr. and Mrs. A. M. McGlaughlin (Bettie Harward) a second son, Thomas Lloyd, November 26, 1947, at the 49th General Hospital, Tokyo, Japan. Bettie wrote from Japan recently, "We are now living in Washington Heights, a housing area for 800 American families, which is a complete village in itself. I've been here for a year and a half now and am completely spoiled with servants and low commissary prices (they're high enough!) We expect to stay at least another year. With every issue of the Alumnae News I feel a little older — the class of '47 is so far removed from '39. I imagine the class of '47 glances through the previous classes and thinks, as I used to, 'gosh, those girls are getting pretty old to still be marrying and having children.' My husband is a budget analyst with the Economic and Scientific section of Supreme Command, Allied Powers."

Aibans located on the Long Island, R. R. in Queens, 30 minutes from Penn. Station, offering a real opportunity for discovery of New York City during off-duty hours. My present work is the care of officer neuro-surgical patients, the largest number of whom are paraplegic casualties of World War II. I spent a week end this past fall in Freehold, N. J., with Mrs. Warren Fairbanks, mother of Muriel (Fairbanks) Mickel, '39, and Muriel's sister, Lucille Soden. We visited Reva (Heidenger) Mills '39 there, and saw her very nice husband and two beautiful children. Reva is keeping her 1939 year book up to date with information given in the Alumnae News. Muriel is married to a Washington, D. C., reporter, and she works in the music division of the Library of Congress. I saw her on my way up to New York from Reidsville. She looked better and happier than I had ever seen her."

Daphne Lewis resigned in January as field secretary for the Wilmington, Delaware Area Girl Scout Council to become assistant camp director for the Girl Scouts of Greater St. Louis. She will supervise all day camps in St. Louis during the six weeks season and spend the remainder of the year training aids and planning the programs. She has done an outstanding piece of work with the Wilmington Girl Scout Group in the organization of a Girl Scout chorus of between thirty and fifty voices, which presented an annual Christmas program and appeared publicly at other times during the year. She had been in Wilmington since 1944 and during that time was director of Camp Timber Ridge near Birdsboro, Pa., which was used by the Wilmington Area Scouts. On her trip to St. Louis she stopped by Washington, D. C., to see Matilda (Robinson) Sugg '31, and also spent some time in New York City with her sister, Dora Lewis, who is studying at the Juilliard School of Music. Between jobs Daphne spent some time in Greensboro with her parents, Mr. and Mrs. R. Harry Lewis.

Claire (McRoberts) Bartlett and her husband, who is a teacher of industrial arts, live at 140 Grant Ave., Jersey City, N. J. She wrote recently, "Still working hard as school teacher and housewife, but I love every minute of it. My husband, Jack, sister, Doris '44, and I are planning on going up to see Jane Gilbert in Deerfield, Mass., some week end soon. She is going to teach us how to ski!"

Doris McRoberts wrote from 674 Bergen Ave., Jersey City, N. J., "This is my second year of teaching home economics in Newark, and enjoy it more each day. Teaching cafeteria experience to mentally retarded boys in a pre-vocational school has numerous advantages for one's teaching ability. I find these pupils attentive and sincere in their efforts trying to grasp every opportunity to be helpful in their particular field. Socially, I am at present a provisional member of the Junior Service League of our community and find it deeply interesting."

Virginia (Mayberry) Elam whose address is 1518 Lenox Ct., Willow Run Village, Mich., wrote in February, "Can you imagine my surprise the other Sunday when I saw Miss Elizabeth Spelts' name on the program of a local church we attended. It was good to see a familiar name and face, even if she was never a teacher of mine." Virginia's husband is a law student at the University of Michigan.

C., and I sing in the choir at the Myer's Park Baptist Church and we live within shouting distance of each other. I have enjoyed my copies of the News so much — my only wish being that more of the gals would keep in touch with it so that we could all hear about friends we haven't seen in many months. Keep it coming."

Blanche (Stevens) Long and her husband live at 2913 C. Jefferson St., Wilmington. He is with the U.S. Naval Reserve Fleet and they have one son, Marcus T. Long, Jr., one year old.

Nell Alice Stephens is in the X-ray department of the Memorial Hospital in Charlotte. She wrote recently, "Had a chance to gab with my ole W. C. roommate **Toto (Thies) McGehee** '45, at the wedding of **Blanche Theis** '44. The wedding was one of the loveliest I've seen thus far; Blanche was most certainly the 'radiant bride.' Toto is still in Louisiana where she and her husband have a church. They are most enthusiastic about the opportunities for their work there."

Helen Gray Sullivan, who has been with foreign service staff, Office of Political Advisor in Berlin since 1946, wrote in January that she looked forward to returning to the States this

Mary Alice Vann writes from her home, 502 Washington St., Monroe, "Will graduate March 6, 1948, from University of Pennsylvania School of Medicine. During the months before my internship at the Medical College of Virginia (in Richmond) is to begin on July 1, 1948, I intend to be doing some clinic work at home in Monroe for the Health Department. If this work permits, I want to be able to be at W. C. for commencement this year — I've been looking forward to it for a long time. The *Alumnae News* is still my favorite piece of mail — I wish there were more editions!"

Elizabeth Wade, class of '44, writes from 54 Burleigh St., Waterville, Maine, "I left W. C. in February 1943, to go to work for the war effort. In September 1946, I went back to study at Colby College, Waterville, Maine, where I graduated in June 1947, having attained membership to Phi Beta Kappa. This year I am teaching freshman mathematics at Colby College and studying some on the side, but not for graduate credit."

Lois Williams lives at 267 Stiles St., Elizabeth, N. J. She is a chemist with the Standard Oil Development Company there, where she is doing gasoline line research.

DO THIS

If Baby Has a Cold

Best-known home remedy you can use to relieve distress of baby's cold is to rub his little throat, chest and back with Vicks VapoRub at bedtime. Results are so good because VapoRub:

Penetrates to cold-irritated upper bronchial tubes with special soothing medicinal vapors.

Stimulates chest and back surfaces like a nice warming poultice.

While baby sleeps VapoRub's penetrating-stimulating action keeps working for hours to bring relief. Often by morning most distress of the cold is gone. Try Vicks VapoRub tonight!

Patsy (Fordham) Myrick, whose address is 113 Mason Farm Rd., Chapel Hill, wrote recently, "Albert and I are still in Chapel Hill and are thoroughly enjoying our apartment in Victory Village. We have three miniature rooms—for which we are very thankful. The most essential item in our entire apartment is probably our coal stove. It heats our water, cooks our food, and heats our apartment! Albert is in the school of journalism and hopes to finish up down here in June 1949. Since we enjoy life so much here in Chapel Hill, we are really in no hurry to leave. I am working with the American Cancer Society here four hours a day. My work is extremely interesting and I also like having afternoons off for household chores and a bit of recreation."

Sara (Fritz) Lewis, Com. '45, is a secretary in Bowling Green, Ky. Her husband is a student at the Business University. They make their home at 601 Chestnut St., Bowling Green, Ky., Virginia (Fulk) Petretti and her husband, who is a physician, live at 360 E. Gun Hill Rd., Bronx, N. Y. Address: 12312 Navy St., West Los Angeles 34, Calif. I expect to go to work as a medical social worker in one of the local hospitals after we are moved and settled." Her husband is with the Douglas Aircraft Company in Santa Monica, Calif.

Thelma Payeur, who teaches in Candor, wrote in recently, "My fifth grade has dwindled from 49 to 38, which pleases me no end. I plan to return to Camp Quinluc, Ely, Vt., for another summer as canoeing counselor."

Barbara (Pettit) Graf whose address is 1292 River Road, Edgewater, New Jersey, writes: "Nothing much is new except that Gene finished school so we had to move off campus. We were living in one of those government veteran housing projects (not a Quonset Hut) and we had become quite attached to our attractive little four room bungalow. However, I couldn't talk Gene into flunking something so that we could stay there... and now we live in one room in a 27-room mansion overlooking the Hudson River. It's really quite delightful (for one room). It's a tower room and everything is round—the walls, the window frames (five of them) and even the panes of the glass are curved. Consequently we have been given subtle words of advice from the landlady about not throwing things at each other if our aim is not good because the glass costs a fortune to replace! I'm still commuting to New York, still working for Junior Bazaar magazine, trying to save up enough so that I can make the '45 Reunion in May."

Betty Poe lives in Hampton, Va., where she is working with the Bell Computing Machine at the National Advisory Committee for Aeronautics at Langley Field.

Mary Elizabeth (Randall) Whisnant teaches home economics at Catonsville High School, Baltimore, Md. Her husband is a dentist there.

Ruth Wolfe, who lives at 712 Cleveland Ave., Winston-Salem, is planning to write a book on her travels during the war. She says of her experiences, "I have spent the last few years in an enjoyable and educational manner. I have been half way around the world twice and was the only North Carolinian (to my knowledge) in Tangier, Morocco, from 1944-46. I know these places as well as I know my twin city here—Bermuda Islands, Azores Islands, Portugal (the fantastic place—I slept in a Queen's room at the Hotel Aviz), Spanish Morocco (Tangier, Ceuta, Tetuan) Casablanca, the Rock of Gibraltar, French Moroc-

co., France (Marseilles and the Riviera cities), the fascinating city of Madrid, Spain (I have toured Spain—despite Dictator Franco)—by plane, train, ship and automobile and a great deal by foot), also Havana, Cuba. Although I have an education from travel, I still want a degree, and to be an author. I don't know how just yet, but I will find a way to get it."

Mary Emma (Graham) Little writes
from her home at 1226 Newport Pike,
Forest Brook Glen, Wilmington, Del.,
"Last September my husband received
his doctorate from M. I. T. and we left
Newberry Port, Mass., and moved to our
new home in Wilmington, Del. He is now
employed with E. I. Du Pont and Nemours
and I am practicing Home Ec instead of teaching it."

Evelyn Griffin writes from her home
in Greenville, N. C., "I was snowbound
on the Woman's College campus in
January while visiting my sister who
is a freshman there. Saw Lucy Dunn
Elmore '46, Myrtle Soles '45 and sev-
eral others that I knew. It was mighty
good to be back. I visited Lib Laugh-
ridge, a fellow classmate and lab tech-
nician in Columbia, S. C., the last
week end in February. It was good
seeing Lib again and seeing part of
South Carolina for the first time."

Mary Elizabeth (Gunn) Davis lives

DEVOE PAINTS

Featuring the
2-COAT SYSTEM

This Devoe 2-Coat System doesn't try to saddle or shirk. There are two definite jobs for outside paint to do, and Devoe does them. Each coat does its specific work. The first coat locks the pores of the wood like iron, seals it against sucking up life-giving oils. The second coat is built to laugh off ultra-violet sun rays and weather, still sparkles after several years.
